The image shows a mobile app interface for the Entrance ID System. At the top, there is a status bar with signal strength, 4G network, Wi-Fi, and battery level at 52% (09:44). Below the status bar is a yellow header with a back arrow. The main content area has a white background. It features a shield icon followed by the text '验证码' (Verification Code). To the right of this text is a progress bar with a left-pointing arrow and the text '50%'. Below the progress bar, there are two links: '验证码3分钟内有效' (Verification code valid for 3 minutes) and '收不到验证码' (Can't receive verification code). A large yellow button with the text '确认' (Confirm) is centered below these links. At the bottom, there is a line of text: '点击确定表示同意用户协议' (Clicking Confirm indicates agreement with the user agreement).
