

STUDENT: _____ AT HOME HEALTH CHECK AND PARENTS CONFIRMATION

New standard to be implemented as part of daily morning check May, 2020.

Dear parents, authorized guardians. You are required to fill out this check form every morning before sending your child to school and present it to either on-duty management/guards at campus before 2nd temperature check and entrance to campus or to the school bus monitor before the temperature check and boarding of the school bus.

Under each date, you must write your child's temperature, measured at home in the morning and sign to confirm that no household members are currently ill with fever or pneumonia like symptoms (cough, difficulty breathing).
